

JOSPER CHARCOAL REFERENCES 2023

Josper wood charcoal provides a high calorific value and durable power. Its high efficiency significantly reduces cooking times, which represents substantial savings of money and of resources used for its obtainment.

Josper, in its line of responsibility and commitment with the environment, obtains its charcoal through a sustainable management of natural resources, adding a differential value to its labor and fostering the maintenance of our forests. Consequentially, Josper has obtained the FSC®, PEFC and REACH certifications in compliance with the best practice standards in the field.
